BRITISH STANDARD (BS) 381C Colours

The British Standard BS 381C specifies colours used in identification, coding and other special purposes. This is a key reference for specifying a particular paint colour to use in the refurbishment of buildings – especially at Local Authority level or for major works, such as office blocks, airports, schools and hospitals.

### EXTENDED BRITISH STANDARD (BS) 4800 Colours

New BS4800: 2011 colour range. The extended (2011) range of BS4800 colours is shown below. The new (2011) standard includes 22 additional colours that are mostly brighter to reflect the latest trends for public buildings and spaces. These paint colours are widely recognised throughout the UK and are often used to meet safety, legal or contractual requirements.
